# MAKE IT RIGHT

UX DESIGN COURSE

#1

Mistake: Card title hierarchy being overlap by the image.

Proposed Solution: Get consistent color images and it should have no words on it

#2

Mistake: Inconsistent color in CTA has it not emphasize

Proposed Solution: Better find an alternative color for the CTA. You can apply the 60/30/10 on it. Or find good palette.

#3

Mistake: More click to choose

Javascript ▼

Please choose the programming language you want to use. You can change this later.

Proposed Solution: Use radio instead of dropdown for less click in the user side.

#4

Mistake: Icon and text have separate spaces

Proposed Solution: Better use "New Tab" for easy understand not to populate the space

#5

Mistake: Spell error

Proposed Solution: Fix the spelling and the position of the letters

#6

Mistake: Redundancy of the A letter in the Icon and the words. Also the dropdown is too little that mostly not recognizable

Proposed Solution: Better not use the icon or the word just and make the hover and give details for what purpose.

#7

Mistake: Inconsistent position of the CTA button

Proposed Solution: Fix the position of the spacing between "cancel" and other button
